Generator Site Surveys

Part No.

Product Description

We offer free consultancy for new hard-wired Generator installations to ensure our professional recommendation matches your requirements and expectations. We work closely with you to ensure we have a clear understanding of your current situation and what Power Protection needs your organisation requires for both today and the future.

One of our highly trained technical specialists would be happy to attend your organisations premises to engage in a free site survey for new hard-wired Generator installation projects and perform an informal assessment. We will then provide you with expert advice on your current or potential future UPS requirements.

Why Choose Adept Power Solutions For Your Free Site Survey?

- Impartial Expert Advice
- Factory Trained Engineers & Electricians
- Safe Contractor Approved
- ECA Approved

Adept Power Solutions has the internal technical and electrical skills to offer a full electrical and Generator installation service without the need to outsource works or for you to search for electrical contractors. Our electricians are all 18th Edition trained with numerous other relevant electrical skill sets and qualifications.
