Riello Sentryum 10kVA Xtend 1/1 or 3/1 Phase UPS S2

Part No. S3M/10/XTD/S2

Product Description

The Sentryum range is Riello UPS's third generation of transformerless online Uninterruptible Power Supply (UPS) systems. Produced as an upgrade to the popular Riello Multi Sentry UPS, the Sentryum delivers key improvements including USB, RS232, and RJ10 ports, as well as a variety of communication card slots.

The Riello Sentryum Xtend S2 UPS system provides full-rated power, with exceptional operating efficiency up to 96.5% in online double conversion loads as low as 50%. With 11 minutes of runtime at full load, this UPS device will keep your electronic data protected during emergencies.

This product has no internal batteries and is available as a single-phase or three-phase input, single-phase output UPS (selectable at the time of installation).

The Riello Sentryum range has a unique control system that reduces harmonic voltage distortion (<1% at resistive load and <1.5% at non-linear load) and provides enhanced overload and short circuit capacity to guarantee maximum availability.

The 5-inch colour touchscreen display highlights UPS measurements and statuses, and the intuitive LED status indicator automatically changes colour based on the current UPS operating state.

This product is scalable up to 8x UPS in parallel to increase capacity or build redundancy.

Features

- 11 Minutes Runtime at Full Load
- No Internal Batteries
- Single or Three Phase Input

- Three Phase Output
- 5-inch Colour Touchscreen
- Led Status Indicator

Specification

Manufacturer	<i>Riello UPS</i>
Power (VA)	<i>10k</i>
Input Phase	<i>Single or Three</i>
Output Phase	<i>Single</i>
Weight (Kgs)	<i>206</i>
Depth (mm)	<i>840</i>
Width (mm)	<i>440</i>
Height (mm)	<i>1320</i>
